The authortitle-icomp style

This style combines the features of authortitle-ibid and authortitle-comp. It will implicitly enable the sortcites package option at load time. This style is intended for citations given in footnotes. If you want terms such as 'ibidem' to be printed in italics, redefine \mkibid as follows:

\renewcommand*{\mkibid}{\emph}

Note that 'ibidem' is sometimes taken to mean both 'same author+title' and 'same author+title+page'. By default, this is not the case in this style because it may lead to ambiguous citations. If you you prefer the alternative interpretation of 'ibidem', set the package option ibidpage=true or simply ibidpage in the preamble.
